Reasons For Allowance

Claims 1-13 are allowed. Foregoing claims are allowable since the prior art of record does not teach the claimed electron emitting element of a structure in which a semiconductor layer is formed between an upper electrode and a lower electrode, wherein an organic compound adsorption layer is formed on a semiconductor surface of the semiconductor layer by causing a organic compound to be adsorbed on the semiconductor surface in combination with other features of the claim. Dependent claims are allowable since they depend on allowed independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
